Objective

Aspiring frontend developer with a passion for creating dynamic, user-friendly web applications. Experienced in React, JavaScript, and CSS with hands-on experience working on personal projects. Eager to leverage my skills in building innovative and responsive web solutions.

Skills

Languages: JavaScript, HTML, CSS

Frameworks/Libraries: React, Bootstrap

Version Control: Git, GitHub

Tools: VS Code, Chrome Developer Tools

Others: Basic knowledge of APIs, Responsive Web Design, Mobile-first development

Projects

NFT Landing Page

Tools: React, CSS, Bootstrap

Created an interactive landing page for an NFT project, featuring responsive design and smooth animations. Integrated key features such as project details, roadmaps, and team information.

eCommerce Website

Tools: HTML, CSS, Bootstrap

Developed a simple eCommerce website with product display, shopping cart, and checkout features. Focused on making the website responsive across different screen sizes.

Portfolio Website

Tools: React, CSS, GitHub Pages

Built a personal portfolio to showcase my web development projects. Focused on clean design and smooth navigation, highlighting my skills and projects.

Certifications

Frontend Web Development – CodSoft(2023)

Volunteer Work / Extracurricular Activities

Hackathons: Participated in a 1-week coding challenge to build a simple web application.

Education

While I don't have a formal degree, I have learned web development through various online platforms, including freeCodeCamp and Udemy. I am constantly updating my skills through personal projects and continued learning.
